

Project for Enhancement of Engineering Higher Education in Myanmar

# EEHE PHOTOLETTER

## The Staff Training in Aug. and Sep. in YTU and MTU

The staff training under EEHE Project was conducted in Yangon Technological University (YTU) from 28<sup>th</sup> August to 8<sup>th</sup> September and Mandalay Technological University (MTU) on 11<sup>th</sup> and 12<sup>th</sup> September in the departments of Electrical Power, Electronics, Mechatronics, CEIT\* and Workshop. 8 academic staff and 3 technical staff from Japanese Supporting Universities were dispatched.

The training was focused on research activities such as experiment and group work, as well as the COE program\*\* such as student experiment, graduation (research) project and internship program.

In order to enhance student's experiments, reporting and evaluation of each experiment were discussed. In addition, experiment safety was advised. Furthermore, the Japanese system of graduation research was introduced and discussed in relation to the preparation of the research in YTU and MTU. Regarding the internship program, Japanese professors recommended to make information such as program and syllabus to students and companies, credit for internship to enhance students' motivation and insurance for students.

The professors also checked equipment in the common laboratories, advised how to manage the equipment and laboratory, and demonstrated some experiments.

The training by EEHE Project is planned to be held at MTU in coming November.

\*Computer Engineering of Information Technology, \*\*Centre of Excellence Program is the special 6 years' Bachelor of Engineering program in YTU and MTU established under Ministry of Education since 2012.
