

## Number of Students

(As of 1 May,2022)

Course		Program	Number of Students			
School of Engineering		Mechanical Engineering Program	352			
		Electrical and Electronic Engineering Program	342			
		Computer and Information Science Program	76			
		Structural Engineering Program	195			
		Civil and Environmental Engineering Program	183			
		Chemistry and Materials Engineering Program	303			
		Graduate School of Engineering		Master's Course		
Department of Advanced Engineering				Mechanical Engineering Program	96	
				Electrical and Electronic Engineering Program	94	
				Computer and Information Science Program	64	
				Structural Engineering Program	40	
				Civil and Environmental Engineering Program	23	
				Chemistry and Materials Engineering Program	95	
				(Formerly:Water and Environmental Engineering Program)	14	
Frontiers of Marine Science Program				9		
Doctoral Course (3 Year Program)				Department of Science and Technology		
				Systems Engineering Program		29
				Electrical Engineering and Computer Science Program	8	
				Chemistry and Materials Science Program	5	
Doctoral Course (5 Year Program)				Department of Advanced Technology and Science for Sustainable Development		
		Water and Environmental Science Program		7		
		Next Generation Energy System Program	5			
		Advanced Functional Materials Program	9			

From April 2022, the "Frontiers of Marine Science Program" will be newly established, and the "Water and Environmental Engineering Program" will become the "Water and Environmental Science Program"
